Illinois

Skokie Valley Trail (Lake County)

Illinois

Overview The Skokie Valley Trail connects Highland Park in the south to the northern trailhead in Lake Bluff. The entire trail

Overview

The Skokie Valley Trail connects Highland Park in the south to the northern trailhead in Lake Bluff. The entire trail corridor is a rail-with-trail, paralleled by double tracks that sit about 40 feet to the west of the trail surface. The well-maintained asphalt path offers a nice, smooth experience for a multitude of uses. In addition, the trail shares right-of-way with a major electricity service company, and you will see high-voltage electrical wires overhead.

About the Route

Even in such an urban environment, nature flourishes

along the Skokie Valley Trail. Although the trail passes suburban Chicago life along each side of the corridor, it's not uncommon to come across rabbits, deer, blackbirds, hawks, and robins among numerous tree and low-brush species. The trail is sandwiched between US 41 and the train tracks for most of its course, and there are several major road crossings. While these are well marked and include crosswalks, use caution when crossing.

The northernmost section of the trail passes through mainly commercial and light industrial developments, and as the trail approaches Lake Bluff, some residential subdivisions. Just before reaching the Deerpath golf course in Lake Forest, the Skokie Valley Trail splits, with a short spur turning east toward the lake and ending at the Laurel Avenue trailhead.

The 200-plus-foot trail bridge over State Route 22 signals the midpoint of the trip. The southern portion of the trail carries trail users south, passing through, Northcroft Park, Heller Park, and Buckthorn Park, before coming to its southern trail endpoint near Woodridge Park.

Connections

At the northern end of the trail, the Skokie Valley Trail connects to the [North Shore Bike Path](#).

A disconnected section of the trail is open on the same corridor farther south, in Cook County.

Skokie Valley Trail (Lake County)

Illinois

States: Illinois

Counties: Lake

Length: 9.8miles
