Black Creek Nature Trail

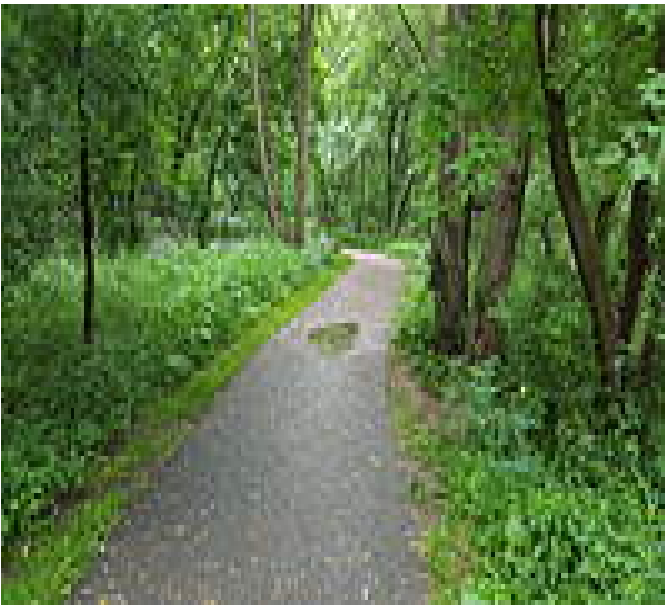

Michigan

The Black Creek Nature Trail begins at the Davison Township Municipal Center and winds its way to the trail system in the City of

The Black Creek Nature Trail begins at the Davison Township Municipal Center and winds its way to the trail system in the City of Davison's Jack Abernathy Regional Park. Travelers on the trail will enjoy the tree-lined, 1.6-mile route along the Black Creek to the 138-acre park.

The trail, which connects the township and city, is a significant part of the area's efforts to encourage a healthy, active community. In 2011, the Davison Arch was erected where the township and city meet on the trail as a monument to this joint effort.
