Closure Notices: In Palmyra/Wayne County, a portion of the trail is closed between route 21 and Swift Landing Park. In Oneida-Verona, Oneida County, a bridge replacement is taking place at the corner of SR 31 and SR 46, and a detour is in place. In Albany-Rensselaer, Albany & Rensselaer Counties, the pedestrian bridge at Dunn Memorial Bridge is closed indefinitely (follow according detour signs). In Macedon, Wayne County a short section from Walworth Park to Pal-Mac Park is closed for aqueduct repairs. For all closure notices regarding the Erie Canalway Trail, see [Empire State Trail](#) for more up to date information.

Overview

When complete, the Erie Canalway Trail will run for 360

miles in upstate New York—from Buffalo in the west to Albany in the east—linking many other communities along the way, including Rochester, Syracuse, Rome, Utica, and Schenectady. It currently comprises more than 290 miles of open trail and has a few remaining gaps. In 2018, a 5-mile gap on the eastern side of the trail was closed when a new section of the trail opened between Pattersonville and Amsterdam.

About the Route

Most of the trail follows these canal and rail corridors and it is nearly level with an average grade of 1 percent. A few steeper grades and hill climbs can be found in the Mohawk Valley section on the trail's eastern half. Large sections of the trail are surfaced in stone dust from crushed limestone; however, some stone dust sections are being converted to asphalt paving. A range of bike types can be used effectively on the trail, including mountain and hybrid bikes, as well as road bikes equipped with wider tires (28 mm or more recommended). The two longest paved sections are at either end of the trail: from Albany to Schoharie Crossing and from Buffalo to Pendleton.

There are several on-road gaps throughout the trail, but most are easily navigable with trail signage and road markings.

For those who want to cross-country ski, the western and central portions of the trail receive the most average snowfall. The trail is open year-round, but it's up to each municipality whether they wish to plow, so check with the local government if planning to use the trail in the winter months, especially if interested in snowmobiling, which is permitted in some of the more rural areas.

The western segment of the Erie Canalway Trail is also referred to as the Shoreline Trail. The southern endpoint is in downtown Buffalo and travels about 13 miles north to Tonawanda. Part of the route includes the Riverwalk along the Niagara River, which is quite scenic and provides access to

Erie Canalway Trail

New York

States: New York

Counties: Albany, Cayuga, Erie, Herkimer, Madison, Monroe, Montgomery, Niagara, Oneida, Onondaga, Orleans, Schenectady, Wayne
