Adirondack Rail Trail

New York

The Adirondack Rail Trail connects the Adirondacks Region with 34 miles of recreational rail trail from Lake Placid to Tupper Lake.

The Adirondack Rail Trail connects the Adirondacks Region with 34 miles of recreational rail trail from Lake Placid to Tupper Lake.

The Adirondack Rail Trail is composed of crushed stone, with small sections of asphalt. In Saranac Lake and near Lake Clear, there is a 15mph speed limit.

About the Route

Leaving off from the trail's easternmost endpoint in Lake Placid, and the largest town you will find on the route, the trail heads west. Lake Placid was also the home of the 1980 Winter Olympics. From Lake, the trail dips into the Adirondack Wilderness along a crushed stone surface, skirting alongside Ray Brook and traveling through the

woods for most of its route before reaching Saranac Lake. Before heading north into the Village of Saranac Lake, the rail trail crosscuts the lake for Scarface Mountain, a popular hike in the region.

The 2.5 miles of the trail within the village of Saranac Lake are paved and pass by Lake Flower and downtown Saranac Lake, filled with restaurants, souvenir shops, and other worthwhile excursions

The short, 0.5-mile paved, section of the route in Saranac Lake is also known as the [Saranac Lake Recreational Path](#).

From Saranac Lake, the trail passes a number of lakes including Lake Colby, McCauley Pond, and Lake Clear. Little Rainbow Pond and its surrounding wetlands are a scenic highlight of the route, which the trail passes closely by. Another common site along the trail is large boulders, left behind from ancient glacier activity.

The trail skirts the St. Regis Canoe Area, a wilderness area noted for its numerous wild paddling opportunities and ponds dotting the landscape.

The trail comes to its eastern end in Tupper Lake, New York, another small and idyllic town.

Trail History

The New York Central Line Railroad, along which the Adirondack Rail Trail was constructed was originally built in 1892 by William Seward Webb. This passenger rail service originally carried users from Utica all the way north to Lake Placid through the scenic and wild Adirondack Mountains.

After many periods of abandonment and disuse, the Adirondack Scenic Railroad opened in 2000 with excursions between Lake Placid & Saranac Lake, Thendara and Carter Station/Moose River, and Utica to Thendara. In 2014, it was
