The Oldsmar Trail extends over 10 miles, and links to 10 major parks in Oldsmar, Florida. R.E. Olds Park lies at the center of the system, which is roughly shaped like an upside down T. One south-north branch extends to Cypress Forest Park. The other branch stretches west to east from the Oldsmar Sports Complex to Mobbly Bayou Beach Park. The trail is mostly concrete but there are unpaved sections, particularly in the section going through the Mobbly Bayou Wilderness Preserve and heading into to Mobbly Beach.

The different parks and segments of the trail offer different things to trail users: some parks are places for fitness and sports, others for nature exploration and wildlife watching. Whichever direction one turns, there's something on the Oldsmar Trail for everyone.

Oldsmar Trail

Florida
