The Old Fort King Trail is a 6.7-mile mixed-surface trail in west Central Florida. The trail consists of two parts: starting from John B. Sargeant Park, a 2.2 mile paved portion heads north, along the east side of US 301. This part is easy for users of all ages and abilities. At the end of the paved path, the trail crosses US 301 and heads into the forest, continuing north to Hillsborough River State Park along an unimproved path that can be a challenge on a regular day, and downright impassable during periods of heavy rain. This part is best for hiking (carry a walking stick) and mountain biking.
