Clam River Greenway

Michigan

The Clam River Greenway represents a citizen-led effort to create a safe and beautiful recreational asset in what had been a neglected

The Clam River Greenway represents a citizen-led effort to create a safe and beautiful recreational asset in what had been a neglected space. Today, the trail connects Bob Meyer Jr. Park in the north with Lake Cadillac in the south through a dense residential area. The path is lined with uplifting features like a sound garden, flowers and bridges over the wetlands. Part of the route, along Business US-131, follows existing sidewalks.

Clam River Greenway

Michigan
