Sioux Center is a city about an hour southeast of Sioux Falls. It is home to a north-south bike-ped pathway stretching the length of the city and cutting right through the heart of town. The Sioux Center Bike Path weaves together many of the cities parks and open spaces, offering a safe and healthy way to get around. Among the parks accessible on the trail's route are Open Space Park and Athletic Fields, Children's Park at the pathway's midpoint; and Regency Park at the southern end of the trail. Residents can also access schools, churches and neighborhoods via the trail.

At Kinsey Elementary, the Sioux Center path meets the Sandy Hollow Recreation Path, which continues heading east.
