Kenosha Pike Bike Trail

Wisconsin

Kenosha Pike Bike Trail

Wisconsin

Helping to forge a connection between the northern and southern segments of the Kenosha County Bike Trail, the Kenosha Pike Bike

Nearly seven miles of the ten-plus mile route is comprised of off-road trail segments, utilizing paths through several parks along the lakeshore, including the city's Harbor Park, which is home to the Kenosha Public Museum and the city's Civil War Museum. South of the park, be sure to take a breather and check out the flower gardens and public beach when the weather is nice; numerous sandy beaches are accessible just off the trail for those who want to dip their toes in the lake. Cyclists looking for some additional mileage can use the Pike Trail to connect to the Kenosha County Bike Trail, which provides a pleasant path north to Racine or south all the way to the northern edge of Chicago.

Helping to forge a connection between the northern and southern segments of the [Kenosha County Bike Trail](#), the Kenosha Pike Bike Trail also has plenty to offer in its own right, giving trail users a safe and scenic means of experiencing some of the plentiful history and lakefront beauty that abounds in Kenosha. The Pike Trail is a combination of off-road paved trail segments and signed on-street bike routes, running north and south along Lake Michigan on the eastern side of the city. The trail passes through countless local parks and recreation sites, and gives trail users access to some of the historic districts and lighthouses within the city.

The Kenosha Pike Bike Trail is part of the Route of the Badger, a Milwaukee-area trail network.
