San Antonio Corridor Trail

New Mexico

The San Antonio Corridor Trail provides a nice paved pathway within a power line utility corridor in northeastern Albuquerque,

The San Antonio Corridor Trail provides a nice paved pathway within a power line utility corridor in northeastern Albuquerque, connecting between trails to the east and west in this tranquil residential area. Heading south from Quintessence Park (and the [Quintessence Trail](#)), the trail turns to run west beneath overhead power lines - their presence detracting somewhat from the beautiful mountain backdrop. Crossing into Heritage Hills Park, the trail comes to an end along a shrub and tree-lined corridor, continuing further west as the Heritage Hills/North Pino Trail.

San Antonio Corridor Trail

New Mexico
