Thompson Fenceline Trail

New Mexico

The Thompson Fenceline Trail runs through a power line utility corridor along the border of the Albuquerque suburbs of Rio

The Thompson Fenceline Trail runs through a power line utility corridor along the border of the Albuquerque suburbs of Rio Rancho and Corrales, traveling along the outskirts of dense suburban neighborhoods through flat desert shrubland. The trail offers plentiful, sweeping views of the imposing Sandia Mountains to the east, and also offers access to a number of small local parks situated in neighborhoods along the route, making the trail a vital recreational asset in the community.

On the southern end of the trail, the [Intel Trail](#) picks up across the street and continues south along the edge of the massive business complex for the Intel Corporation, allowing you to travel a combined one-way distance of over three miles.

Thompson Fenceline Trail

New Mexico

States: New Mexico
