Dry Run Creek Trail

South Dakota

Dry Run Creek Trail

South Dakota

Following the natural corridor formed by its namesake creek for just over a mile, the Dry Run Creek Trail provides a great

leading up to scenic Lake Mitchell.

Following the natural corridor formed by its namesake creek for just over a mile, the Dry Run Creek Trail provides a great opportunity for outdoor recreation and sightseeing right in the heart of the charming small city of Mitchell, South Dakota. The paved trail runs between Minnesota Street and Burr Street just across the railroad tracks from downtown Mitchell, passing through ball fields, picnic areas, and lovely open space along the side of the narrow creek.

With its convenient location to downtown and adjoining neighborhoods, the Dry Run Creek Trail makes for a great option for getting in a pleasant stroll or quick bike ride while in Mitchell; the city has also been actively working on expanding their community bike path system, with many miles of trail built on or in progress to the north,
