Stadium Drive Trail

North Carolina

The Stadium Drive Trail is a component of Durham's North-South Greenway, a series of multiuse trails crossing the city of Durham.

intersection where it meets the West Ellerbee Creek Trail). The trail meets the Ellerbee Creek Trail just past the National Guard Armory (801 Stadium Dr) at Rock Quarry Park (701 Stadium Dr).

The Stadium Drive Trail is a component of Durham's North-South Greenway, a series of multiuse trails crossing the city of Durham.

While the Stadium Drive Trail mostly utilizes the sidewalks and occasionally a paved sidepath, the route serves as an important connector—linking the <u>Warren Creek Trail</u> in the north with the <u>West Ellerbee Creek Trail</u> and with the <u>Ellerbee Creek Trail</u>.

From its northern endpoint located at Warren Creek Trail's southern trailhead at the south end of Whippoorwill Park (1632 Rowemont Dr), the route runs along the south side of Stadium Drive. At the intersection with Kirkwood Drive, the route switches to the north side, and then back to the south side at Broad Street. (This is the
