## Assateague Island Bike Path

*Maryland*

## Assateague Island Bike Path

Maryland

*Long known for its sandy beaches and wild pony herds, beautiful and remote Assateague Island has become more bike-friendly*

Once on the east shore, the trail turns south and crosses Bayberry Road near the parking lot for the Assateague Island State Park. The road can get very busy during the warmer months of the year, roughly from May to October, and caution is advised. It then parallels Bayberry Road on the east, extending south to South Ocean Beach in the National Seashore.

Although this segment of the trail is separated from the road by a guardrail, users should look out for the wild ponies that Assateague is famous for. The ponies can sometimes step onto the trail or adjacent road and it is illegal to handle them, and trail users should watch for manure on the pavement.

Long known for its sandy beaches and wild pony herds, beautiful and remote Assateague Island has become more bike-friendly thanks to the construction of a 4.9-mile paved, multi-use trail that allows users to stay off busy Route 611.

### About the Route

Leaving from the trail's northern endpoint on the mainland at the Assateague Island State Park Visitor Center, then crosses Sinepuxent Bay on a dedicated bridge that parallels the Verrazano Bridge immediately to the south. The section on the bridge and the adjoining causeway that connects to the island offers panoramic views of the bay and island, and Ocean City can be seen to the north on a clear day.

# Assateague Island Bike Path

*Maryland*

**States:** Maryland

**Counties:** Worcester

Length: 4.9miles

**Trail end points:** NPS Headquarters, 7205 Stephen Decatur Hwy (Berlin) to Life of the Dunes Trail (Assateague)
