Anderson Airport Trail

Indiana

Planes, trains and automobiles: the Anderson Airport Trail in Madison County has it all. The asphalt trail begins at the perimeter

Planes, trains and automobiles: the Anderson Airport Trail in Madison County has it all. The asphalt trail begins at the perimeter of the Anderson Municipal Airport runway in Chesterfield and allows users to connect to the Mounds State Park in Anderson. The trail rounds the edge of the airport, then runs along an active railroad for 0.67 miles, then curves west emerging onto Mounds Road. From there, a sidepath continues for 0.9 miles along Mounds Road leads to the entrance of the state park.

The Airport Trail will one day be incorporated into the Mounds Greenway, a proposed system of existing and future trails stretching from Anderson to Muncie along the White River. The Mounds Greenway is a proposal of the Hoosier Environmental Council.

Anderson Airport Trail

Indiana

States: Indiana

Counties: Madison
