The Burbank Channel Bikeway is a concrete multi-use path located alongside the Burbank-Western Flood Control Channel in LA

The Burbank Channel Bikeway is a concrete multi-use path located alongside the Burbank-Western Flood Control Channel in LA County. The bikeway was built in two phases. The first, 0.3 miles between Victory Boulevard and Alameda Avenue, was completed in 2011. The second phase opened about a decade later and extended the trail along the wash to the Downtown Burbank MetroLink Station.

Options for connecting the Burbank Channel Bikeway at Olive Avenue to the [Chandler Bikeway](#) are being explored. The latter trail leads to the North Hollywood Station on the Orange line.
