Assawoman Canal Trail

Delaware

The Assawoman Canal Trail is a crushed stone pathway for cyclists and pedestrians that runs along the west side of its namesake

The Assawoman Canal Trail is a crushed stone pathway for cyclists and pedestrians that runs along the west side of its namesake waterway through Ocean View, Delaware. The canal was hand-dug in 1891 and played an integral part in the town's history, and the trail now allows residents and visitors the chance to contemplate the past while enjoying a pleasant stroll or ride.

The trail is managed by the Delaware State Parks system, which offers additional recreational opportunities in the nearby Delaware Seashore State Park, including the [Prickly Pear Trail](#) and the [Fred Hudson Road Trail](#).

Assawoman Canal Trail

Delaware
