45SW parallels Texas State Highway 45, stretching north-south for 4.5 miles. The wide paved path has moderate undulations and no steep climbs. The trail is unshaded, and there are sweeping views of the surrounding Hill Country. A highlight of the trail is its interpretive signage, which narrates the area's rich natural history. Using the Central Texas Mobility Authority's mobile app, users can unlock six hidden augmented reality experiences (See related link). Rest areas with drinking water are also provided. The trail will one day connect to the future Violet Crown Trail.
