153 Extension Trail

South Carolina

The 153 Extension Trail is a short, paved sidepath in the eastern outskirts of Easley, South Carolina. The biking and walking

The 153 Extension Trail is a short, paved sidepath in the eastern outskirts of Easley, South Carolina. The biking and walking pathway was built in 2020 as part of a road extension project, allowing non-vehicular traffic to make use of a new route.

While it lacks the charm or historical significance of the nearby [Doodle Rail Trail](#), the 153 Extension Trail marks a small but important investment in the local community's recreation and transportation needs.
