Southwest Greenway

Michigan

Despite being less than a mile long, the Southwest Greenway provides important community connections to the riverfront and

the rail-trail passes under several busy boulevards and provides safer pedestrian access to the riverfront, where it connects to the [Detroit RiverWalk](#) at West Jefferson Avenue.

The Southwest Greenway is paved, wide, and well-lit. There are bike racks, emergency call boxes, and trail signage along the route.

Despite being less than a mile long, the Southwest Greenway provides important community connections to the riverfront and several city parks. Located in southwest Detroit, the greenway follows a former railroad corridor for just over half a mile. It is part of two trail networks: Detroit's Joe Louis Greenway and Michigan's Iron Belle.

Access its western end at 14th Street & Bagley, where there is a bikeshare station, picnic tables, a drinking fountain, and a very small green space.

Heading southeast towards the river, the rail-trail briefly parallels an active rail line and is protected by fencing. Mid-route access is available from the intersection of Vermont Street and Porter Street. Continuing southeast,
