## Wilson Pathway

Idaho

*The Wilson Pathway in Nampa, Idaho follows the Wilson Drain, a tributary of the Upper Embankment Drain which connects to Lake*

The second 2.4 miles of the trail continues southeast once again, passing by Wilson Creek Park, which has a playground, open recreation area, and drinking fountains. The trail also skirts the Wilson Springs Ponds, a local fishing spot. At its Eastern terminus, the trail connects to the [Stoddard Pathway](#).

The Wilson Pathway in Nampa, Idaho follows the Wilson Drain, a tributary of the Upper Embankment Drain which connects to Lake Lowell. Along its 11-mile course, the Wilson drain is surrounded by trees and greenery, providing trail users with a shady and scenic route as the Wilson Pathway weaves its way through Nampa, Idaho.

Starting at South Fremont Street in the NW, the trail continues southeast for 2 miles until reaching Lake Ave. Here, there is a slight gap in the official trail, there is a very short dirt track connecting the brief gap in the trail that continues south from Lake Ave but those looking to stay on a paved route, trail users can continue East on W Iowa Ave and then south on 12th Ave Rd. and again east on W Greenhurst road until the trail picks up again and heads South again.

# Wilson Pathway
