The Trinity Forest and AT&T trails total 8 miles and loops through the Great Trinity Forest on the outskirts of Dallas. The Great Trinity Forest is the largest Urban Forest in the United States and boasts an impressive range of old-growth hardwood forests, wetlands, grasslands and riparian zones. Notable wildlife within the forest include skunks, armadillos, yellow-crowned night herons, wild turkeys, bobcats and more.

Together the AT&T Trail and Trinity Forest Trail form an almost-complete loop that meanders along the Trinity River. It also passes by the Trinity River Audubon Center, a beautiful modern building perched on top of the marshlands, with education programs, volunteer opportunities and a number of short hiking only trails.
