West Harvard Gulch Trail

Colorado

The West Harvard Gulch Trail is a short but sweet greenway trail that totals out to 1.3 miles. The trail is composed of asphalt making

The West Harvard Gulch Trail is a short but sweet greenway trail that totals out to 1.3 miles. The trail is composed of asphalt making it accessible for pedestrians and cyclists alike. Most notably, at its eastern endpoint, the trail connects to the [River Platte Trail](#), a nearly 30-mile trail spanning throughout most of Colorado and the surrounding suburbs.

The trail itself can be used as a starting point for access to the [River Platte Trail](#) or also to give trail users access to the Northwest Greenbelt off-leash Dog Park.
