Rock Island Swing Bridge Park

Minnesota

The Rock Island Swing Bridge Park is a unique example of railroad reuse and provides a fun recreation experience and scenic

Trail History

The Swing Bridge was one of the few double-decker bridges to span the Mississippi. It was used for trains until 1980, and was partially demolished in 2009 before opening as a park.

The Rock Island Swing Bridge Park is a unique example of railroad reuse and provides a fun recreation experience and scenic viewpoint.

About the Route

The trail itself is only 0.2 miles long, and while the bridge does not cross the river, it provides scenic views of the Mississippi and amenities including a restroom, picnic tables, and benches.

Connections

Swing Bridge Park connects to the [Mississippi River Regional Trail \(Dakota County\)](#).
