The Emeryville Greenway is a 1.9-mile route through the dense Berkeley neighborhoods.

About the Route

At the north end of the trail, 9th Ave. directly turns into the Emeryville Greenway. The trail runs a concrete route nestled between shopfronts and dense housing. The route is often shaded by the surrounding tree cover. A brief section is on-route, so trail users must share the road with car traffic or use sidewalks to continue on. Near Ohlone Way, an impressive bike-ped bridge offers a crossing for trail users looking to cross the railroad tracks. The trail comes to its southern end at Huchiun Park.

Emeryville Greenway

California

States: California

Counties: Alameda

Length: 1.9miles

Trail end points: 9th St. to Sherwin Ave.

Trail surfaces: Asphalt, Concrete
