The Old 301 Santee Walking Bridge, which is sometimes just called the "Old Bridge" is part of both the statewide Palmetto Trail and the Lake Marion Passage and offers a unique recreation opportunity.

The trail crosses Lake Marion on the old US 301 Bridge, right next to the current I-95 bridge. There are often fisherman and other people enjoying this trail. For hikers and bikers looking for a longer route, the Lake Marion Passage portion of the Palmetto Trail continues to head north on a combination of on-road and primitive trails.
