Colton Rail-Trail
California

Colton Rail-Trail

California

This urban trail travels along the side of North Colton Avenue and South Inland Center Drive, connecting San Bernadino and Colton.

This urban trail travels along the side of North Colton Avenue and South Inland Center Drive, connecting San Bernadino and Colton. The corridor is an abandoned Southern Pacific rail line and will eventually help residents access the [Santa Ana River Trail](#) and perhaps the [Pacific Electric Inland Empire Trail](#). The trail becomes a sidewalk near the I-215 overpass, so cyclists may need to walk their bikes or use Inland Center Drive to connect both segments of trail.

Colton Rail-Trail

California
