South Dade Trail

Florida

The South Dade Trail runs 21 miles along the South Miami-Dade Busway between N Kendall Drive/SW 88th Street in South Miami

The South Dade Trail runs 21 miles along the South Miami-Dade Busway between N Kendall Drive/SW 88th Street in South Miami and Krome Ave in Florida City.

About the Route

The trail connects communities between South Miami and Florida City. In South Miami, the northern end of the trail is on Kendall Drive, just north of the Dadeland South Metrorail station. On Kendall Drive, the trail connects seamlessly to the [M-Path](#), which continues north to downtown Miami.

A component of the commuter corridor between Miami and South Dade County, this trail is nothing short of an urban adventure. Paralleling US Highway 1 for most of its

length, the route was adapted for—and is largely used by—urban commuters seeking refuge from Miami's heavy traffic congestion. The trail connects such points of interest as the Dadeland and Cutler Ridge shopping areas and commercial office spaces. It also links up with the Metrobus and Metrorail lines.

Cyclists can stretch their legs on this fairly open trail, but use caution when crossing its many major intersections. Metrobus stations along the route provide plenty of parking, so you can pick up the trail just about anywhere. Dadeland Mall anchors the north end and Cutler Mall is about 8.5 miles south.

The best aspect of this trail is that all Miami-Dade Metro buses provide bicycle racks, and no special permits are required. So after a long day of riding, walking, shopping or sitting at a desk, simply mount your bike on the rack at the front of the bus, pay the fare and climb aboard—you've earned the air-conditioned return trip.

Connections

At N Kendall Drive/SW 88th St in South Miami, pick up the [M-Path](#) here and continue north to downtown Miami.

At SW 117th Ave in Miami, the [Black Creek Trail \(Miami-Dade\)](#) crosses the trail.

South Dade Trail

Florida
