## Volksweg Trail

Iowa

*Closure notice: Beginning 06/17/2025, portions of the Volksweg Trail will be closed for repairs. Degraded asphalt will be removed*

Closure notice: Beginning 06/17/2025, portions of the Volksweg Trail will be closed for repairs. Degraded asphalt will be removed from sections of the trail and concrete will be installed in its place. Please stay aware of closure notices posted at trailheads and adhere to all barricades and signs. For more information, contact the Lake Red Rock administration office at (641) 828-7522.

Who says Iowa doesn't have hills?! The winding route of the Volksweg Trail sticks mainly to the rolling hills and scenic viewpoints from Lake Red Rock all the way to the town of Pella. Dutch immigrants settled this lovely section of Iowa in the mid-19th century, which explains how the Volksweg Trail, Dutch for "people's path," got its name.

Beginning at the trailhead on the west side of the bridge

across Robert's Creek, you'll head east alongside County Road G28 on a trail separated from the road for 3 miles that passes through the Fifield Recreation Area. Leaving the road after crossing Wallingslock Creek, you head into some woods as you skirt the northern edge of Wallashuck Campground. If you are thirsty, you can grab a drink at the Wallashuck trailhead, which also has restrooms and parking available to your right.

About 2.5 crooked miles down the trail from the Wallashuck trailhead, you will pass by a well-equipped playground right before the landscape opens up to North Overlook Recreation Area park and beach. Many visitor amenities, such as restrooms, picnic tables, and drinking fountains, can be found here.

To go around a trail closure and continue to Pella, you can take a detour left onto County Road T15 (0.3 mile) and right onto Idaho Drive (0.6 mile). Idaho Drive reconnects with the trail across the street from a gas station. This portion of trail is uneven, with cracked pavement that may be difficult for some users.

From here you can follow the remaining 2 miles on the trail along Idaho Drive all the way to the Volksweg Water Plant Trailhead, located at West Fifth Street and University Street. If your timing is right, you may arrive for Tulip Time festival in early May. Otherwise, you may want to visit the Dutch-themed town center about a mile away via University Street and Main Street. You'll find a historical village, a Dutch windmill, and plentiful coffee shops and bakeries.

# Volksweg Trail

Iowa

**States:** Iowa

**Counties:** Marion

Length: 12.5 miles

**Trail end points:** County Road G28 at Fillmore Dr. in Cordova Park to University St. at W. Fifth St. (Pella)

**Trail surfaces:** Asphalt
