There's no need to hold your breath along the Bergland to Sidnaw Rail-Trail while teetering across steep land bridges or crossing the impressive trestles that tower over streams and rivers because the spectacular views will take your breath away. You will be rewarded with one such view about midway along this 43-mile trail as you overlook Agate Falls rushing down the rocky steps of the Middle Branch of the Ontonagon River.

The trail is also known as Trail 8 on Michigan snowmobile maps.
