Field Club Trail

Nebraska

Following a former railroad route, the Field Club Trail spans nearly 2 miles in one of Omaha's older neighborhoods. The northern

southern end, the trail connects to the [South Omaha Trail](#), which in turn ties into other trails in the city's vast network.

Following a former railroad route, the Field Club Trail spans nearly 2 miles in one of Omaha's older neighborhoods. The northern portion of the trail—beginning just south of the University of Nebraska Medical Center—is unique in that it lies 30 feet below-grade, lending a secluded feel and sheltering trail users from the surrounding city din.

As the trail continues south, it passes through a tree-lined corridor sandwiched between the Field Club of Omaha golf course, civic sites and urban backyards. The trail then runs through Harrison Heights Park before ending at old grain silos on Vinton Street.

The quiet and scenic trail has less traffic than other Omaha trails, and there are few road crossings. On its

Field Club Trail

Nebraska

States: Nebraska

Counties: Douglas

Length: 1.8miles

Trail end points: S. 40th St. and Leavenworth
St. to S. 35th St. and Vinton St.
