This trail is in an area rich in geological history. Zinc and Iron Ores were transported along this branch from mines in the area that operated for over 200 years. The trail is scenic with a slight uphill climb. In Ogdensburg you can experience a mine first-hand. At Sterling Hill tours of the mine are at 1pm and 3pm daily with an additional tour at 11am on weekends. The mine is closed weekdays in December and March and is completely closed during January and February. Call (973) 209 7212. Another interesting attraction in the area is the Franklin Mineral Museum. Call (973) 827-3481 for more information.

Hamburg Mountain Wildlife Management Area

New Jersey
