Karamac Trail

New Jersey

The Karamac Trail is a short walking trail that starts under the Interstate 80 bridge on the New Jersey side of the Delaware River.

The Karamac Trail is a short walking trail that starts under the Interstate 80 bridge on the New Jersey side of the Delaware River. The trail follows an old railroad right-of-way; there is a railroad mile marker just a few yards from the southern end of the trail. The trail follows the banks of the Delaware River to old bridge abutments where the railroad used to cross the river. There are areas to park at both ends of the trail. At the southern end the trail starts at a gate near the traffic signal that controls the one land section of Old Mine Road. At the north end of the trail park at the large Fairview parking area and follow a hiking trail down to the river where the rail trail begins.

Karamac Trail

New Jersey

States: New Jersey

Counties: Warren

Length: 1.5miles
