Osage Prairie Trail

Oklahoma

Osage Prairie Trail

Oklahoma

The Osage Prairie Trail follows the corridor of the old Midland Valley Rail for 16.3 miles. The trail links Oklahoma State University

and then heads back out into the rural Oklahoma countryside where the route crosses over Bird Creek.

After here, the trail turns slightly east and continues south through the towns of Sperry and Turley. South of Turley, the trail landscape completely changes from the northern rural landscape and enters the dense suburbs north of Tulsa.

The route meets its southernmost endpoint just shy of downtown Tulsa along E Independence Place.

The Osage Prairie Trail follows the corridor of the old Midland Valley Rail for 16.3 miles. The trail links Oklahoma State University in Tulsa with the town of Skiatook to the north.

The trail is lighted in places for night use and passes through both urban and rural landscapes. The southern end is mostly suburban, while around Skiatook and Sperry, the trail takes on a more countryside atmosphere.

About the Route

The trail heads south from the northernmost trail endpoint along NW 166th St. and heads directly south along a rural corridor, ensconced in trees. As the trail heads south, the trail passes through the heart of Skiatook

Osage Prairie Trail

Oklahoma
