Snow Shoe Rail Trail

Pennsylvania

Coordinated by the Snow Shoe Rails to Trails Association (SSRTA), the Snow Shoe Trail caters primarily to ATV and off-road

Coordinated by the Snow Shoe Rails to Trails Association (SSRTA), the Snow Shoe Trail caters primarily to ATV and off-road motorcycle enthusiasts. It is open to other users as well, but the rough ballast and gravel surface make for a bumpy mountain bike ride or a tricky hike. From the Gillentown Trailhead heading east to Clarence, the trail surface is crushed stone and much more forgiving on both feet and bike tires.

About the Route

The Snow Shoe Trail preserves the 1,277-foot Peale Tunnel, completed in October 1883. If you plan to pass through the tunnel, bring a light to get a better look at the cut-stone entrances and mix of brick and natural surface on the interior. Note that another of the trail's structures,

the viaduct bridge over Moshannon Creek is permanently closed to users.

While all types of users are welcome on the trail, motorized users must get a permit from SSRTA. Local ATV membership is highly recommended. Obey all of the posted signs and be courteous to other trail users. Note that there are 12 gates with bollards along the trail; motorized vehicles must be less than 61 inches wide to pass through these bollards.

Trail History

The Snow Shoe Trail finds its origins in the Beech Creek Railroad, which opened in 1884 to serve the Clearfield Bituminous Coal Company, whose mines were expected to produce 500,000 tons of coal each year. In 1899 the railroad ceased independent operation and was incorporated into the New York Central & Hudson River Railroad Company. The rail line also offered passenger service until about 1934.

The railroad saw its last train in 1990 under the ownership of the Consolidated Rail Corporation. By 1994 the tracks had been removed and the right-of-way had been acquired by the Headwaters Charitable Trust in anticipation of a rails-to-trails project. Since then the SSRTA formed and has worked to create this fully functional rail trail.

Snow Shoe Rail Trail

Pennsylvania

States: Pennsylvania

Counties: Centre, Clearfield

Length: 18.4 miles

Trail end points: Clarence Rd. (Clarence) to
Cassanova Rd. (Munson)

Trail surfaces: Ballast, Gravel

Trail category: Rail-Trail

Trail activities: ATV, Fishing, Horseback
Riding, Mountain
Biking, Snowmobiling, Walking

Parking & Trail Access
