Valley Trail

Vermont

The scenic Valley Trail spans 9 miles connecting Dover and Wilmington in southern Vermont along the Green Mountain

On the southern end of the trail, in Wilmington, you can cross W. Main Street and go over a footbridge across the North Branch of the Deerfield River to access the [Hoot, Toot and Whistle Trail](#).

The scenic Valley Trail spans 9 miles connecting Dover and Wilmington in southern Vermont along the Green Mountain National Forest. It provides a critical off-road pathway for bypassing State Route 100. Much of the trail is lushly wooded, traveling along brooks and passing occasional small ponds. The system consists of a mix of trail types: The lower two-thirds of the trail (approximately 6.5 miles) are narrow, natural-surface track; The Crosstown Trail between Handel Road and Country Club Road features wide gravel paths. There is only one paved, off-street section of trail -- 0.5 miles along SR 100 near Dover Town Park.

Note that there's a short gap in the trail at its northern end. A short, disconnected portion of the trail travels to the Mount Snow Ski Area in Dover.

Valley Trail

Vermont

States: Vermont

Counties: Windham

Length: 9.1miles

Trail end points: S. Access Rd. and Handle Rd.
(Dover) to W. Main St./Route 9 (Wilmington)
