O&W Railroad Pedestrian Promenade and Bikeway

New York

This unique in-city trail was built on portions of the former Ontario and Western Railway Line through the City of Oswego. The Ontario

This unique in-city trail was built on portions of the former Ontario and Western Railway Line through the City of Oswego. The Ontario and Western Railway ran its last train in March of 1957. The trail passes through a short tunnel, which was used by the now defunct railroad.

Plans call for extending the trail along more of the abandoned right-of-way in the near future. The pedestrian promenade and bikeway is a joint project between the city and the county utilizing the former O&W Railroad tunnel.

O&W Railroad Pedestrian Promenade and Bikeway

New York

States: New York
