Hiawatha Trail (WI)

Wisconsin

Shimmering lakes and Wisconsin's beautiful North Woods wilderness await visitors to the Hiawatha Trail. The trail provides a

the trail is surrounded by glistening lakes and travel over expansive trestle bridges. At trail's end, trail users can continue for another 18 miles on the [Bearskin State Trail](#), where both trails meet at County Highway K just east of where it intersects with US 51. Cyclists and cross-country skiers over 16 years old will need a [state trail pass](#) to use the Bearskin.

The allure of these North Woods trails lies in their isolated, scenic charm. Parking and restroom facilities are located at Sara Lake Park in Tomahawk. And trail users won't have problems finding a motel or a good meal in the tourist town of Tomahawk. Continuing on the Bearskin Trail, there is only one remote restroom facility along the way and no other amenities or easy access to food and water until reaching Minocqua.

Shimmering lakes and Wisconsin's beautiful North Woods wilderness await visitors to the Hiawatha Trail. The trail provides a splendid journey along an old Milwaukee Road rail corridor that hauled white pine to the Midwest and later carried a passenger train named the "Hiawatha."

The trail traverses an area of one of the densest concentrations of lakes in the world. Converted railroad trestles glide across long spans of lakes covered in lily pads. During the warmer months, hikers and bikers hit the trail and take in the astounding lake vistas. Snowmobiles are permitted in winter, and many connecting trails provide endless hours of exploration.

Traveling north from Tomahawk on the Hiawatha Trail,

Hiawatha Trail (WI)

Wisconsin
