Shaw Rail-Trail

Mississippi

Shaw Rail-Trail

Mississippi

One of a handful of western Mississippi communities to salvage a benefit from the abandonment of a 50-mile railroad corridor

Other trails on the same former rail corridor include the [Boyle Rail-Trail](#), Cleveland's [Crosstie Walk](#), the [Renova Heritage Walking Trail](#), [Shelby Trails](#) and [Duncan Walking Trail](#) to the north and the [Hollandale Rail-Trail](#) to the south.

One of a handful of western Mississippi communities to salvage a benefit from the abandonment of a 50-mile railroad corridor between Cleveland and Hollandale in 1999, Shaw railbanked the portion of the line through their small city to provide a paved trail for local residents. The corridor was originally built by the Yazoo and Mississippi Valley Railroad before being merged into the Illinois Central Railroad and ultimately ending up under the control of the Columbus and Greenville Railway.

The Shaw Rail-Trail is a short loop trail resembling a compressed running track between White Oak Street and Elm Street. The surrounding area is landscaped, and lights, benches and a covered pavilion make the trail and adjacent park a pleasant place to exercise or relax.
