The Trail de Paris runs for just over 3 miles from the town of Paris east into the countryside. The paved route follows a lovely corridor of shade trees, crossing bridges as it heads along a former railroad right-of-way. The trail includes benches, viewing platforms, mile markers, and interpretive signs. It offers access to a butterfly garden, junior college, neighborhoods, and parks.

On its eastern end, it connects to the [Reno Rail-Trail](#), which extends the ride another five miles. Both trails are part of the growing Northeast Texas Trail, which will stretch 132 miles across seven counties from New Boston to Farmersville. Other trails in the system include the [Chaparral Rail Trail](#) and [DeKalb Trace](#).
