Fairfield Loop Trail

Iowa

Fairfield Loop Trail

Iowa

The Fairfield Loop Trail forms a 16-mile ring around the town of Fairfield, mostly in the outlying areas of the countryside. The trail

bridge over the railroad tracks near Walton Lake. The bridge features 171 ceramic tiles created by high school art students, which are inset into the bridge's concrete curb. Many small bridges, some with artistic enhancements, cross brooks on the Fairfield Loop Trail.

The Fairfield Loop Trail forms a 16-mile ring around the town of Fairfield, mostly in the outlying areas of the countryside. The trail links two major preserves and connects city and county parks. Along the way you'll pass through woodlands, meadows and prairie, and hilly sections.

Most of the trail surface is crushed stone, but there are about 2.5 miles total of concrete surface in four different locations. A 0.8-mile on-road segment follows Mint Boulevard (a gravel road) southward from Lamson Woods toward the trail section that parallels US 34. Other trails, such as the 4.5-mile [Cedar View Trail](#), connect to the Fairfield Loop Trail.

The most spectacular feature of the trail is the BNSF

Fairfield Loop Trail

Iowa

States: Iowa

Counties: Jefferson

Length: 16miles
