Erie Cattaraugus Rail Trail

New York

There are currently several sections of the Erie Cattaraugus Rail Trail open, totaling 12.8 miles. The trail sections are open for

There are currently several sections of the Erie Cattaraugus Rail Trail open, totaling 12.8 miles. The trail sections are open for walking, hiking, jogging, bicycling, horseback riding (Concord only), nature observation, snow shoeing, and cross-country skiing.

In the Village of Orchard Park and Aurora, there are 3.3 miles of connected trail open. In Orchard Park, the 1.3 miles between the Orchard Park Depot Trailhead (51 Bank St, Orchard Park) and Jewett Holmwood Road were resurfaced with crushed stone. The 2 miles between Jewett Holmwood Road and Ellicott Road in Aurora are open with a cleared, but unimproved natural surface.

A 9.5-mile portion of the trail is open from Murray Hill

Road in Glenwood, running south through East Concord and Springville. It has a natural surface of compacted ballast, except for a section surfaced with asphalt millings. Running between Buffalo Road by the Springville Trout Pond and the southern border of Springville, this section with the improved surface includes the [Pop Warner Rail Trail](#).

The Pop Warner Rail Trail runs 1.8 miles between Springville's northern border and its southern border. It is a multiuse trail, with asphalt millings on its surface, and is open to a range of non-motorized uses.

There is a short portion of trail with a natural surface that continues south from Springville's southern border. It comes to a dead end at the north edge of the Springville Country Club. This end isn't accessible from the surrounding streets or the club, so it's an out-and-back.

The Erie Cattaraugus Rail Trail will be a 27.6-mile trail that follows the former Buffalo & Pittsburgh Railroad corridor through the beautiful countryside of Western New York from Orchard Park in Erie County to the Town of Ashford in Cattaraugus County. The railroad right-of-way was railbanked for development as a multiuse trail with Erie Cattaraugus Rail Trail Inc. as the trail manager.

When all sections are open, this multiuse trail will connect the towns of Orchard Park, Aurora, Colden, Springville, Concord and Ashford, as well as their surrounding communities, providing opportunities for recreation and alternative methods of transportation.

The trail is an integral component of the future 80-mile Southern Tier Trail, linking downtown Buffalo and the Empire State Trail with the Genesee Valley Greenway.

Erie Cattaraugus Rail Trail

New York

States: New York

Counties: Cattaraugus, Erie

Length: 12.8 miles

Trail end points: Village of Orchard Park to Springville
