John Husar I&M Canal Trail

Illinois

The John Husar I&M Canal Trail is the northernmost trail developed on the Illinois & Michigan Canal National Heritage

The John Husar I&M Canal Trail is the northernmost trail developed on the Illinois & Michigan Canal National Heritage Corridor. The Illinois & Michigan Canal provided the final link in the water route from the east coast to the Gulf of Mexico by connecting Lake Michigan to the Mississippi River via the Illinois River in the 1800s.

The paved trail runs through preserved forest on the southern bank of the Chicago Sanitary and Ship Canal, which replaced the older canal in 1900. At State Route 83, trail users can connect directly to the [Centennial Trail](#). That trail continues farther south to Romeoville using the opposite side of the canal, where it links with the northern portion of the nearly 70-mile [Illinois & Michigan Canal State Trail](#).

John Husar I&M Canal Trail

Illinois

States: Illinois

Counties: Cook

Length: 8.9miles

Trail end points: Kingery Highway S/SR 83 just north of Archer Ave/SR 171 to South La Grange Rd/US 12/US 45 northeast of I-294

Trail surfaces: Asphalt

Trail category: Canal

Trail activities: Bike,Inline

Skating, Wheelchair Accessible, Walking, Cross Country Skiing
