## Centennial Trail (IL)

Illinois

*Illinois' Centennial Trail runs through parts of three suburban counties from Willow Springs Road to Romeo Road/135th Street*

Illinois' Centennial Trail runs through parts of three suburban counties from Willow Springs Road to Romeo Road/135th Street southwest of Chicago. The trail occupies a thin strip of land between the Des Plaines River and the Chicago Sanitary and Ship Canal, and features a historic swing bridge. Coursing primarily through forest, the trail is ideal for bird and wildlife watching.

The site of the trail is part of the Illinois & Michigan Canal National Heritage Corridor, and the trail connects directly at its southern end with the northern portion of the nearly 70-mile [Illinois & Michigan Canal State Trail](#). Between Kingery Highway S./State Route 83 and Willow Springs Road, the Centennial Trail also parallels the [John Husar I&M Canal Trail](#), which follows the southern bank of the Chicago Sanitary and Ship Canal.

# Centennial Trail (IL)

*Illinois*

**States:** Illinois

**Counties:** Cook, Du Page, Will

Length: 13 miles
