Dana Point Headlands Trail System

California

Trail users looking for an enjoyable loop hike through a new preserve and three parks with stunning ocean views will enjoy the

opportunity for all ages to learn about the local ecosystem and endangered species within the Headlands Conservation Area. Please be aware, that dogs are not allowed along the dirt hiking trails in order to protect the endangered bird and mammal species.

Trail users looking for an enjoyable loop hike through a new preserve and three parks with stunning ocean views will enjoy the 3.1-mile trail system in the Dana Point Headlands, a scenic coastal area in Orange County.

About the Route

The trail system is a mix of natural-surface hiking trails and paved shared-use paths. Several overlooks offer an opportunity to take in the gorgeous ocean vistas and breathe in the salty air. Uniquely, the trail also connects to a funicular on Strands Beach. Free to ride, the inclined elevator transports visitors from the bluff to the beach and vice versa.

The nearby Nature Interpretive Center offers an
