## Indian Creek Trail (KS, MO)

Kansas, Missouri

*The Indian Creek Trail links two states, four communities, and a multitude of parks along Indian Creek. The trail provides*

The Indian Creek Trail links two states, four communities, and a multitude of parks along Indian Creek. The trail provides numerous connections to the surrounding areas, making it an excellent resource for members of the community for both recreation and transportation.

### About the Route

The western trailhead for the Indian Creek Trail is located in Hampton Park, which opened in 2000 and offers water, benches, and picnic tables for trail users. This newer section of the trail extends north from the park, crossing S. Ridgeview Road, and W. 159th Street (and the adjacent 159th Street Path).

From 159th St, the trail treks north until it crosses through Southdowns Park, afterward converging with S Lindenwood Dr., along which trail users will pass Olathe South High School, Indian Trail Middle School, and Scarborough Elementary School. The trail reaches the MidAmerica Nazarene University campus just before winding through dense woodlands.

The Indian Creek Trail eventually enters Olathe, passing close to Olathe East High School on W. 127th Street and meeting the Eastbrooke Trail and Blackbob Road Trail on opposite sides of the school. At both W. 109th Street and College Boulevard, the trail leads to the Overland Park campus of Ottawa University and adjacent office buildings. The trail continues north through more neighborhood parks, passing under Interstate 435 just west of Antioch Road.

At Nall Avenue, the trail links directly to the northern endpoint of the Nall Avenue Path, which leads to the world headquarters of Sprint Corporation and other points south. The trail continues along Indian Creek, passing through a number of neighborhood parks on Overland Park's eastern side.

Continuing eastward, the trail crosses the 66-acre Leawood City Park, followed by the Kansas–Missouri state line. The park contains soccer fields, tennis courts, baseball fields, volleyball and basketball courts, a playground, and an aquatic center, and is the northern trailhead for the Tomahawk Creek Trail. The eastern end of the trail meets the Blue River Parkway Trail, near the confluence of Indian Creek and the Blue River in Kansas City, Missouri.

### Connections

Near Frontier Park, the Indian Creek Trail intersects the [159th Street Path](#).

At Leawood City Park, trail users can connect to the
