Traversing the city of Topeka through a stream valley, the Shunga Trail provides an important connection between residents and

Traversing the city of Topeka through a stream valley, the Shunga Trail provides an important connection between residents and community features such as parks, medical facilities, government buildings, and commercial centers. The trail also connects to the growing [Landon Nature Trail](#) at a unique roundabout near its eastern end.

In the west, the trail traipses through Crestview Park, a sprawling green space that offers a community center, pool, playgrounds, tennis and sand volleyball courts, picnic tables and a softball diamond. At the trail's eastern endpoint at SE Golden Avenue, a direct connection to the [Deer Creek Trail](#) allows for travel south to SE 10th Street.

Shunga Trail

Kansas
