Traversing the city of Topeka through a stream valley, the Shunga Trail provides an important connection between residents and community features such as parks, medical facilities, government buildings, and commercial centers. The trail also connects to the [Landon Nature Trail](#) at a unique roundabout near its eastern end.

In the west, the trail traipses through Crestview Park, a sprawling green space that offers a community center, pool, playgrounds, tennis and sand volleyball courts, picnic tables and a softball diamond. At the trail's eastern endpoint at SE Golden Avenue, a direct connection to the [Deer Creek Trail](#) allows for travel south to SE 10th Street.

Shunga Trail

Kansas
