The Killens Pond Bike Trail provides non-motorized access from US 13 to Killens Pond State Park. The short trail parallels Killens

The Killens Pond Bike Trail provides non-motorized access from US 13 to Killens Pond State Park. The short trail parallels Killens Pond Road before turning south into the park along its main access road. Note that the trail surface changes from asphalt to crushed stone once it enters the park property.

Outside the park, the trail passes Lake Forest High School, providing a safe route to school for its students. Within the park, the trail provides access to its office, sports complex and popular water park. Connecting nature trails lead from the bike trail to the park's central feature, a millpond established in the late 18th century.

Killens Pond Bike Trail

Delaware

States: Delaware

Counties: Kent
