Bear Creek Trail (Denver)

Colorado

The Bear Creek Trail provides a taste of the country within the city, connecting downtown Denver with the foothills of the Rockies.

Connections

At the eastern endpoint, trail users can access [Mary Carter Greenway](#) as well as the [Platte River Trail](#).

The Bear Creek Trail provides a taste of the country within the city, connecting downtown Denver with the foothills of the Rockies. Along the way, trail users will enjoy scenic views of woodlands, meadows, and Bear Creek, as well as the urban beauty of the Denver skyline.

About the Route

The trail more-or-less sits in the tree-lined corridor along Bear Creek. The trail's western end offers forested landscapes through Bear Creek Lake Park, Bear Creek Greenbelt, and Bear Valley Park. The eastern half of the trail provides a connection to shopping centers and commercial areas. It winds closer and further from the highway (US-285) at different points but the trees provide enough of a screen.
